**The CyberSec40T project** – funded by the Digital Europe Programme – **just launched a major survey across Türkiye, Spain, Greece, Estonia, Norway, and Bulgaria.**

## What is the survey about?

Led by top academic institutions and cybersecurity experts, this field study aims to:

- Identify gaps in OT cybersecurity skills and capacity
- Understand current threats, vulnerabilities, and user experiences
- Gather practical use cases that will inform training programs and workshops

## Who should respond?

- Managers and employees working with industrial/OT systems
- SMEs operating in manufacturing or industrial services
- Startups navigating digital transformation and smart production
- IT/OT professionals and cybersecurity officers in industry

## Why does your input matter?

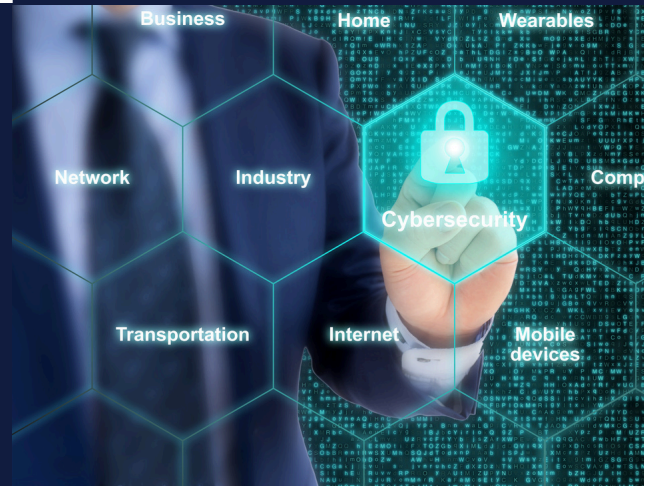

The results of the survey will directly shape:

- New training modules and on-the-job learning tools
- Cybersecurity workshops grounded in real-world scenarios
- EU-level efforts to close the cybersecurity skills gap and support workforce developme

**Take the survey (10–15 mins):**
